# STORMWATER MODELING

Have you ever wondered about the impacts of stormwater runoff in our community? In addition to flooding, stormwater runoff can also carry pollution to our waterways that we rely on for every day life.

Join us for an engaging afternoon focused on our stormwater modeling project and learn how you can make a difference in your community!

Don't miss this chance to learn, engage, and be part of the solution! Together, we can create a positive impact on our community.

Location: The Dominican Center  
2470 W. Locust St., Milwaukee, WI 53206  
Date: Saturday, June 7th  
Time: 10 a.m.-noon
